

QUEEN CREEK UNIFIED

AVID SUMMER BRIDGE

Prepare for your future with a FREE summer learning experience!

MON-THURS | JUNE 7-24

8:00AM - 12:00PM

**LOCATION: QUEEN CREEK JUNIOR HIGH
TRANSPORTATION & MEALS ARE NOT PROVIDED**

AVID Summer Bridge is a program designed to strengthen students' math and science skills over the summer gap to prepare them for their future grade level.

This FREE program is for current 6th, 7th, & 8th graders who are currently passing all of their classes. Students can choose from three digital modules in Math and Science. Sign up online today. Space is limited!!

QUEEN CREEK UNIFIED

AVID SUMMER BRIDGE OPTIONS

Tribal Survival: Math for 7th Grade

6th graders and 7th graders will be organized into tribes and challenged with Math concepts. Teams will compete utilizing critical thinking, collaboration, and problem solving skills within a positive; fun learning environment to help boost their math confidence.

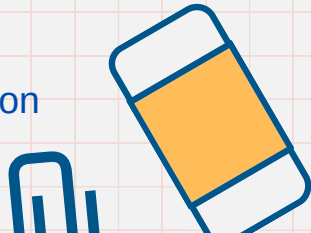

Adventures in Algebra

The Adventures in Algebra module strengthens 7th and 8th grade students' understanding of fundamental math and algebraic concepts to provide a solid foundation for success in Algebra 1 while working in small groups in a competitive and fun atmosphere.

Mission Possible Science

7th and 8th grade students will engage in hands-on science activities to develop critical thinking and scientific skills while tracking a dangerous scientist around the world as he attempts to release a deadly microorganism.

For any questions, please contact Adam Poirier at
apoirier@qcusd.org

You will be notified of acceptance after the registration window has closed at the end of April.
